A. E. Rosica & Co., Inc. (AER&CO) announced today that its client, Lorco Petroleum (Lorco) has acquired Planet Earth Recycling, Inc. of Philadelphia, Pennsylvania (Planet Earth).

Like Lorco, Planet Earth is a “Green Economy” company. It was established in 1990 and was the first antifreeze recycling company on the east coast. It has since expanded to include used oil filter recycling and bulk windshield washer fluid sales.

“Acquiring Planet Earth strengthens and expands our ability to Lorco’s and Planet Earth’s respective customers,” said John Lionetti, president and chief executive officer of Lorco. “Lorco’s broad range of oil recycling, industrial and related products and services is a perfect fit with Planet Earth’s specialized products and services offering. The integration of the companies enables us to be more cost effective and efficient. This will benefit our customers as well as our other stakeholders,” Lionetti added.

Lorco will retain Planet Earth’s employees and continue to serve its customers without any disruption in customer service. Planet Earth’s customers who currently receive its antifreeze recycling services, oil filter recycling services and bulk windshield washer fluid, will now also be able to receive oil recycling, parts washers, industrial and environmental services and other related products and services, all from one convenient, reliable source.

Headquartered in Elizabeth, New Jersey (New York City metropolitan area) and with additional operations in Camden, New Jersey (Philadelphia metropolitan area), Lorco ([www.lorcopetroleum.com](http://www.lorcopetroleum.com)) has been recycling oil, anti freeze, oil filters and providing related recycling and environmental services and product sales since 1957.

Headquartered near Washington, DC, AER&CO ([www.aerosica.com](http://www.aerosica.com)) is a specialized financial advisory firm serving the environmental and energy industries. Its clients include large corporations, utilities and financial institutions as well as smaller middle market and growth companies. AER&CO offers merger & acquisition and capital formation advisory services.
