A. E. Rosica & Co., Inc. (AER&CO) announced today that its client, Glen Echo Capital (GEC) has acquired Komline Sanderson Corporation (Komline). Terms of the transaction were undisclosed.

Founded in 1946, Komline provides the highest quality equipment and system for various process applications including filtration, drying, thermal processing, wastewater treatment, sludge processing, and pollution control. The company and its subsidiaries serve a wide range of municipal, electric utility and industrial clients around the world.

GEC is a private equity firm focused on partnering with small and medium-sized industrial, technology and services businesses.

AER&CO (www.aerosica.com) is a specialized advisory firm serving clients in the environmental and energy industries. Its clients include large corporations, utilities and financial institutions as well as smaller middle market and growth companies. AER&CO offers merger & acquisition and capital formation advisory services.
